

Walk-Through Metal Detector

SUNS TS-2000 single zone and TS-3000 multi-zones are high quality microprocessor based walk through metal detector that provides superior metal discrimination and detection. It is ideal for use at airports, seaports, Banks, Public buildings, Industry, Prisons, Stadiums, Hospitals, Power plants, Hotels, restaurants, casinos, discotheques, or anywhere you need security.

Main features

- Extremely High Security and Discrimination
- High immunity to electromagnetic interference
- Password protected
- Intelligent traffic and alarm counters
- High throughput rate: 60 detections per minute
- Pacing lights on entrance side for increase throughput
- Touchpads and backlit LCD for greater ease and clarity
- Optional battery back-up module available
- 100 sensitivity levels for precision detection of target
- 10 volume levels and 4 operator selectable tones
- Modular unit design simplified maintenance

15 Detection Zones

(Model TS-3000)

- Target objects are independently detected in each zone
- Signals from harmless objects do not combine to produce false alarms
- Provides more uniform detection.
- Zone display illuminates at the level where a detection occurs

Certification & Conformity

Complies with Federal Aviation Administration (FAA)
Three-gun test, NILECJ-0601 and applicable EU directives
and International standard on electrical safety and EMC

Power Supply: 95-230 VAC, 50 /60 Hz
Operating Temperature: -15°C to +70°C
Total shipping weight: 60 kg (132 lbs)
Total shipping volume: 0.28 m3 (10 cu ft)
