

Description

Your SUNS Metal Detector is ideal for use at airports, industrial sites, government buildings, schools, hospitals, conferences, sport events, or anywhere you need security. It's sensitive enough to detect metal objects the size of a 25 cent piece. It sounds a high-pitched tone whenever it detects metal.

You can fold TS80 and TS82 series Metal Detector to easy storage.

Specification

Specifications	Model	TS80A / TS80B / TS82
Sensitivity	A 25 cent coin(USD)	70 mm
	Iron Pipe/tube ϕ 20mm	120 mm
Operating Current		<5mA (TS80A); <20mA (TS80B / TS82)
Operating Temperature		-10 C ~ +50 C
Relative Humidity		0~80%
Power		9V IEC 6F22 (Low Battery Alert)
Length		395mm (operating) 260mm (storing)
Dimensions		ϕ 134mm(TS80A / TS80B); 134(L) \times 70(W)mm (TS82)
Weight		230g (not including battery)
