

Wireless Medical Foot Switches

The USB foot switch is an additional input device that provides a more comfortable and convenient way to work with computers. Users can program a unique key or multiple keys with the provided software to the foot switches.

Features

- Available up to 6 key functions
- Available with switch output or USB output
- 2.4GHz RF FHSS Wireless Technology
- Multiple systems can be worked at close proximity
- 5 year standby with 2 or 4 AA batteries

Specifications

Operating Current	9mA
Standby Current	30uA
Service Life	Mechanically 1 x10 ⁶ (operations)
Operating Temperature	-30~+80°C (-22~176°F)
Degree of Protection	IPX8/NEMA 4,4X,6,6P
